## Professional experience

### UX Designer Apprentice, Stellantis

Paris, June 2022 - June 2023 (expected)

- Worked closely with experienced designers and used Adobe and team tools to envision, conceptualize and maintain high quality digital design products like Vauxhall, Citroën, Peugeot and DS website, apps and design system.
- Improved my understanding of UX design processes, including prototyping, testing, iterating, and delivering.
- Collaborated with a diverse team of designers, developers and stakeholders.
- Conducted usability tests, focus groups, surveys.
- Analyzed research data and provided insights to inform the design process.

### UI Designer Apprentice, Stellantis

Paris, Nov 2021 - June 2022

- Developed skills in complex design systems, including typography, desktop/mobile UI, colour, layout, iconography, and aesthetic sense.
- Created responsive designs that work across languages and devices.
- Created interactive components in XD.
- Improved understanding of UI design principles and best practices.
- Applied branding to visual assets during the creation of the Opel design system.

### Web Design Intern, Mobiloweb

Auterive, June 2021

Led UX/UI design efforts using Figma for the development of a photo application.

## Projects

### Designing To Promote Parity In The Tech Industry

Nantes, Sep 2022 - June 2023 (ongoing)

- Conducted user research, developed prototypes, and iterated on design solutions, using the Double Diamond design process to iteratively explore and refine ideas.
- Worked with teachers to align the design with the needs of the target users and researching the challenges of gender inequality in the tech industry.
- Interviewed industry experts and professional women.

### "Speech"- Techstars Startup Weekend

Nantes, Nov 2022

- Designed a LinkedIn like platform for independent contractors based on video resumes instead of text.
- Worked with an interdisciplinary team of 5 professionals.
